Foreword

Dear Parent / Teacher

This level of Kindergarten curriculum is designed to enhance a child's natural instincts to question, discover and participate in the world around them. It lays a critical foundation for academic success in years to come.

Kindergarten is changing and parents are feeling pressure to prepare their children for their first school experience. But while some may fret that reading and doing addition are pre-requisites for kindergarten these days, your child likely possesses many of the skills she/he needs to be successful as she/he begins school.

The child is expected to:

- understand alphabets, numbers, shapes, etc.
- · recite letters and some sounds
- · recognise numbers, pictures, alphabets, etc.
- · be able to understand basic communication and follow instructions
- able to play, talk and enjoy with peers
- develop social skills
- · ability to express feelings

The book contains sets of worksheets aimed at imparting knowledge to the child related to language, art, mathematics, drawing etc. The worksheets are designed using the concept of collaborative learning so that the child can develop a holistic learning pattern in the foundation years of her/his education.

There are instructions given on every worksheet. The learning of the child will depend upon the ability of the Parent / Teacher as how sincerely they follow the instructions and emphasise on the objectives. There are Parents / Teachers guiding notes before each set of worksheets pertaining to a subject. Parents / Teachers must read the guiding notes and instructions carefully to understand and implement them. These worksheets are for the child so make sure that you help and guide if required, but don't do these for them.

The worksheets are perforated and once completed, may be kept in a separate folder.

"My Planner" is designed keeping in mind the most logical flow of the curriculum for the child to learn. Parents / Teachers may decide to change as per their requirements. Keep a track of worksheets by maintaining the record.

There are three sets of Self-Assessment given at the end of the worksheets. It is to be noted that the scores in these assessments are not important, what is important is the learning and understanding ability of the child.

Happy teaching and learning...
